## **Dynamic Quest Shares the Latest Technology Solutions and IT Career Tips with Students**

Greensboro, N.C. – May 25, 2010 – A Group of 15+ ITT Technical Institute students visits Dynamic Quest's facility for a tour of the data center and an informative session covering the latest IT Solutions and important IT career tips.

During the session, students had an opportunity to learn about the latest technologies used by Dynamic Quest and methods on how the company keeps its clients happy. The visit also included a tour of the state-of-the-art Data Center and Dynamic Quest 24/7 Helpdesk, where students learned about the data security, monitoring tools, and SLA policies.

"Seeing how companies operate in real life and having a chance to talk to employers, gives students a valuable outside-of-class experience. We wanted to give students this opportunity to help them gain a better understanding of what it's like to work in an IT environment. Dynamic Quest is proud to be a team that stays involved in the community", said Miguel Gomez, VP of Operations at Dynamic Quest.

**Dynamic Quest**, founded and based in Greensboro, NC, is one company providing multiple solutions in the areas of Data Center Services, IT services, Helpdesk Services, Custom Software Development, and Marketing Services. ([www.dynamicquest.com](http://www.dynamicquest.com))
